

**KS4
Year 10**

Roadmap

Theory

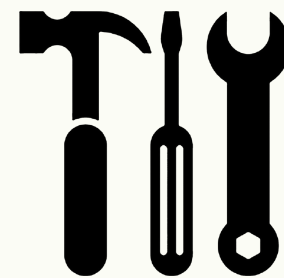

Units 1-4

Learn about the industry, energy, materials, environmental impacts and the science behind DT.

Units 5-7

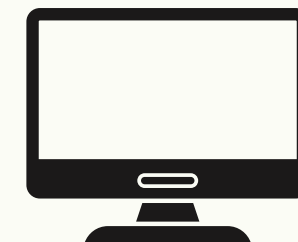

Delve further into materials and explore the work of others, and the theory behind practical working.

Practical

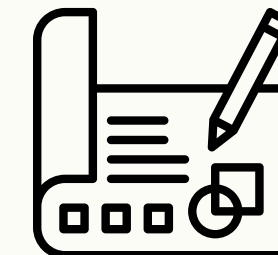

CAD

Explore CAD in more depth in preparation for practical project.

Practical Project

Create a plan for and produce an acrylic lamp. Introduction to NEA practise and independent working.

Evaluation

Evaluate the practical project based on the success criteria.
